Based on ERKA's specifications for a modern blood pressure monitor and in close co-operation with physicians worldwide, ERKA. – a pioneer in blood pressure monitoring – has developed the ERKA. SWITCH 2.0 Comfort.

Outstanding in quality and precision, convenient in operation and handling, impressive in efficiency and advantages, and responsible in managing environmental resources – the modern standard, defined by ERKA.

1_ The ability of the user to change the measuring vessel in seconds, directly and in situ, saves time and resources.

2_ The device meets the requirements for use in an MR environment and is shock resistant.

3_ The use of a special tempered copper-beryllium membrane ensures durability along with the consistent high precision of the measuring device.

4_ The sensitive screw valve enables the user to take perfect measurements.

5_ The innovative design allows the device to be switched from a right-handed to a left-handed device in a single step.

6_ The selection of ERKA. GREEN CUFF cuffs is comprehensive. They are durable, skin-friendly, biocompatible and represent optimal wearer comfort.

The ERKA Switch 2.0 Smart is impressive in its efficiency and flexibility: along with convenient operation and handling, it offers every user the correct cuff size with the ERKA. Smart Set cuffs.

1_ The ability to change the measuring vessel in seconds directly, and in situ, saves time and resources.

2_ The sensitive screw valve of the ERKA. Switch 2.0 Smart enables the user to take perfect measurements.

3_ The innovative design allows the ERKA. Switch 2.0 Smart to be switched from a right-handed to a left-handed device in a single step.

4_ The Smart concept is simple and effective: the size selection is made on the basis of color-standardized cuff tubing; cuffs can be changed in seconds with the ERKA. quick closure.

5_ The appropriate cuff size for every patient - the selection of the ERKA. Set cuffs is comprehensive and ranges from Size 1 (infant) to 6 (thigh).

6_ For maximum hygiene, the ERKA Switch 2.0 Smart is also available with disposable cuffs.

ERKA. THE ORIGINAL Made in Germany since 1889

Our aim – Economic efficiency and environmental responsibility.

Our implementation – The new ERKA. with lightning fast, intuitive operation and the ability for users to change the measuring vessel. SWITCH 2.0.Simplex.

Our result - The ERKA. Switch 2.0 Simplex, because

This measuring instrument saves the medical technician time; as part of the metrological control (MTC), the old measuring vessel can simply be replaced by a brand-new, precalibrated measuring vessel.

it saves the user time, because the device is ready for patient use once more after a few seconds.

it saves the administration time, because complex processes in procurement, logistics and storage are significantly simplified.

it conserves resources, because regardless of whether MTC or replacement is involved – only the measuring vessel needs to be changed.

1_ The use of a special tempered copper-beryllium membrane ensures durability along with the consistently high precision of the measuring device.

2_ The device is shock resistant in accordance with the international standards ANSI/AAMI SP 10.

3_ The design of the SWITCH 2.0 is ergonomically well-balanced and the materials used can be cleaned easily and thoroughly.

4_ The ERKA. selection of GREEN CUFF cuffs is comprehensive. They are skin-friendly, biocompatible and represent optimal wearer comfort.
