

Valved Holding Chamber and Spacer

- Compact design 140 ml volume
- For asthma inhaler medications
- For children and adults
- Optional mask accessories

HH1305/00

Helping you stay in control

Designed to improve medication delivery

OptiChamber Diamond is designed to allow medication to be delivered to the lungs. The anti-static material inside the tube allows the aerosol to be suspended for longer, giving you more time to inhale.(1,2)

Benefits

Effective treatment
- Get medicine to the lungs**

Designed for performance
- Low-resistance valves let you breathe easily
- Anti-static valved holding chamber gives you more time
- Special features make it easy to use and maintain

For commonly prescribed medications
- For commonly prescribed medications

Comfort
- One-size-fits-all mouthpiece
- Optional mask contours to face to make it easier to fit

PHILIPS

Features

Get medicine to the lungs

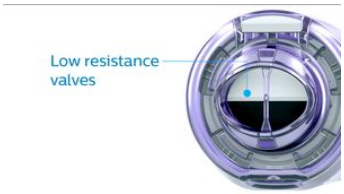

OptiChamber Diamond is designed to improve aerosol delivery to the lungs and can help you maximise the effectiveness of your inhaled therapies.

For adults and children

Designed with a stepped mouthpiece, the OptiChamber Diamond can be used by both children and adults.

Breathe easier

Low resistance valves open freely, even under low flow rates from children, allowing you or your child to breathe easily through the chamber.*

Compatible

OptiChamber Diamond is designed for use with all of your commonly prescribed inhaler medications.

Time to breathe

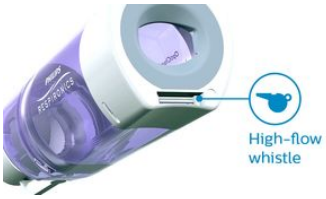

OptiChamber Diamond is designed to allow medication to be delivered to the lungs. The anti-static material inside the tube allows the aerosol to be suspended longer, giving you more time to inhale.*1

Comfort

The detachable LiteTouch facemask has a soft contoured cushion that fits easily and rests gently on the face to provide a more comfortable treatment. The SoftTouch seal helps reduce leakage.***

Easy use, easy maintenance

The adapter keeps your inhaler securely in place, while the built-in whistle lets you know if you are breathing in too fast. Both the mouthpiece and adapter are easily removed for cleaning.

Specifications

Please note that this is a pre-sales leaflet. The contents of this leaflet reflect the best of our knowledge per date and country mentioned above. The contents of this leaflet are subject to change without notice. Philips does not accept any liability as to the contents of this leaflet.

Maintenance

Cleaning	Warm water and liquid soap
Life span data	Replace after one year

Product details

Length	14.2 cm (5.6")
Mouthpiece	Interfaces w 22 mm connectors
Volume	140 ml

Material

Chamber	Acrylonitrile Butadiene Styrene
LiteTouch mask	Polyester, Silicone
Valves	Silicone
