Infrared Vein Finders

BVF-260/262

Product Description

- Applied in neonatology, pediatrics, emergency department, injection department (injection puncture), laboratory, rehabilitation department, inpatient department, medical aesthetics department, plastic surgery department (microplasty), beauty salon and as medical care auxiliaryequipment, etc.

Product Features

- The instrument needs to be operated in a dark room, with infinitely dimmable light and strong permeability, examine veins quickly and accurately;
- Small size, light weight and easy to carry.
- BVF-260 intravenous visvualizer with adjustable light intensity for all kinds of people.
- Induction type light source switch, safe and power saving.
- The external design is more reasonable, the image is clearer, and the grip is more comfortable.
- BVF-262 breast self-examination instrument, for women, to prevent lesions in advance
- BVF-262 three-second self-examination, intelligent detection, clear imaging, non-invasive and painless.

Technical Parameters

BVF-260:

Dimension (L*W*H) 195mm*40mm*30mm

Power adapter input/output voltage Input: AC 100V-240V 50/60Hz 0.5A. Output: DC 12V

Power adapter output current 1A Lithium battery voltage DC 7.4V Lithium battery capacity 500mAh

Light-emitting power ≤9W Near-infrared light wavelength 625nm±5%

BVF-262:

Dimension (L*W*H) 201mm*42mm*50mm

Power adapter input/output voltage Input: AC 100V-240V 50/60Hz Output: DC 12V

Power adapter output current 2A Lithium battery voltage DC 7.4V Lithium battery capacity Built-in 1100mAh

Light-emitting power ≤18W

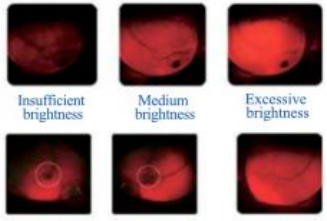

Red light wavelength 620nm~680nm
