ERKA. SENSITIVE PORSCHE DESIGN

JUBILEE - EDITION DESIGNED BY PORSCHE

ERKA. SENSITIVE JUBILEE – EDITION DESIGNED BY PORSCHE

Black 525.10000.7590
Attractively packed in
a valuable leather pouch
designed by Porsche

The following variations are also available upon request via made@erka.org:

_ Personalized laser engraving

Absolutely a special highlight of our 125-yearold company history – the ERKA. Sensitve Porsche Design Jubilee-Edition fascinates by the unmistakable Porsche ICONIC style: functionally, timeless and puristic. The precise design concept linked with traditional craft art makes this stethoscope to your exclusive masterpiece.

The combination of the patented ERKA. dual-membrane and optimal sound chamber geometry enables optimal auscultation of both low and high tones, even in hard to reach auscultation points. The ERKA. Sensitive is the Non-Plus-Ultra for a broad spectrum of possible applications in diagnostic medicine for the examination of heart, lung and bowel sounds.

USER GROUPS:
Anesthesiologists, cardiologists, emergency physicians, paramedics, family physicians, internists, assistant physicians, medical students, nurse anesthetists/caregivers, specialists in respiratory diseases

1_ The construction of the patented ERKA. dual-membrane – designed by Porsche – allows for an additional resonance chamber which optimizes the sound.

2_ The non-chill ring ensures patient comfort and protects the membrane.

3_ The black, high polished and chromium-plated brass chest-piece is especially exclusively; besides, the non-porous surface ensures perfect surface hygiene.

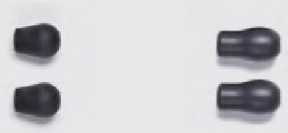

4_ Two internal channels run parallel in the stethoscope tubing. This prevents the friction noises caused by two separate tubes.

5_ Through the separately integrated spring in the tube, there is no acoustic loss from the chest-piece to the ear.

6_ The ergonomically designed, super soft ear tips create an excellent acoustic seal against external noise interference and maximize wearer comfort and fit.

7_ The standard 15° inclined binurals can be individually adapted to the ear canal characteristics of the user.

REPLACEMENT PARTS

EAR TIPS	EAR TIP SOFT 000.45004	EAR TIP SUPERSOFT 000.44905
NON-CHILL RINGS	NON-CHILL RING ADULT 000.53104
